PREFACE

The Statistical Abstract—Tripura, 1983 which is the fifteenth issue in the series, is intended to present a comprehensive statistical picture of the socio-economic aspects of the State. An attempt has been made to cover a wide spectrum of data for a period of ten years since 1973. These data have been disaggregated at the micro-levels of Districts and Sub-Divisions as far as practicable under the present circumstances. In the light of the recommendations of the Central Statistical Organisations, the chapter on Population as well as some portions of other chapters have been revised modified. The relevant explanatory notes and sources of data have been incorporated in appropriate places.

The Directorate of Statistics gratefully acknowledges the co-operation extended by various departments/organisations in bringing out this publication.

Suggestions for improvement of the publication are welcome.

Agartala,
2nd May, 1988.

II CLIMATE

Table relating to rainfall, temperature and humidity are shown in this section.

Table No. 2. 1—In this table, actual rainfall of different average figure in respect of the State as a whole for the years from 1973 to 1983 is presented. Actual annual rainfall is given in centimetres. Normal rainfall of each station with variations of actual from the normal is also given.

Table No. 2.2—This table given monthly and annual rainfall during 1983 with percentage of variation from normal in respect of each centre.

Table No. 2, 3—In this table data on temperature and humidity of Agartala are presented. Highest or lowest temperature a particular month and year mean the highest or lowest temperature recorded in any day of that month of year the mean temperature shown in this table is the simple arithmetic average of the period.

VII. FOREST

Table No. 7.1—This Table gives the information relating to area under Forests. Area under forest is classified by types of ownerships and further by legal status. The classifications of forests are given below :—

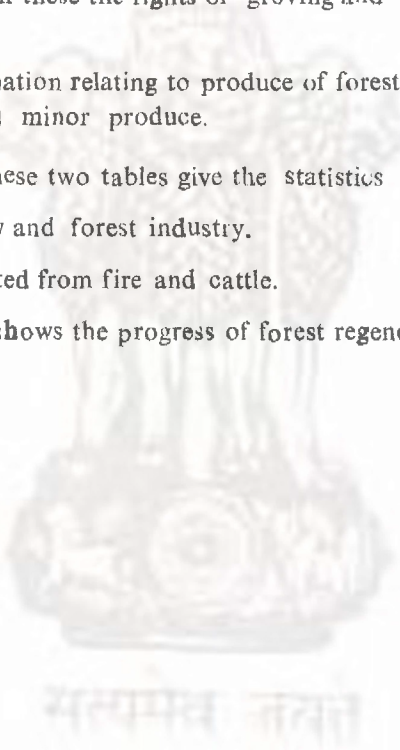

- i) State Forest :—Include all forest under the control of the Forest Department.
- ii) Reserved forests— They are permanently utilized either for production of timber or other Forest products and rights of groving and cultivation are seldom allowed in such forests.
- iii) Protected forests :— In these the rights of groving and cultivation are allowed subject to a few mild restrictions.

Table No. 7.2 7.3—Information relating to produce of forests is given in these two tables. Forest produce is classified as major and minor produce.

Table Nos 7.4 and 7.5—These two tables give the statistics regarding.

- i) Employment in forestry and forest industry.
- ii) Area of Forests protected from fire and cattle.

Table No. 7.6—This table shows the progress of forest regeneration and afforestation made so far.

VIII. FUEL AND POWER

This section presents data regarding generation and consumption of power. No coal is produced in Tripura. Oil is imported mostly from Assam.

Table No. 8.1—Statistics regarding installed plant capacity, total Kilowatt hours generated and total Kilowatt hours sold to ultimate consumers are given in this table.

Table No. 8.2—This table gives information relating to consumption of electricity for different purposes.

Table No. 8.3—This table gives information relating to number of towns and villages Electrified in Tripura (As on 31st March).
